## Notable Projects

Benjamin Donnelly

2023

<https://benjamindonnelly.com.au>

Portfolio for an industrial designer and concept artist with an emphasis on high resolution, full screen imagery, breakdowns of concepts, and explorations of projects. A collaboration in design, built with Typescript, React, Next.js, and a headless CMS, Directus.

Braytech

2018–

<https://bray.tech>

An exercise in translating and extending console video game UI to a responsive web interface which can not be easily distinguished from a native mobile app. Built with Typescript, React, and supported by an Express server running under Node.js.

Xûr

2017

<https://wherexur.com>

A deeply thematic web app built to supplement a fictional character from Destiny 2, a video game published by Bungie. Built with Typescript, React, and supported by an Express server running under Node.js.

## Skill Types

- Programming Languages: HTML, CSS, Typescript, PHP, Python, Java, C#
- Front-End Development: React, Next.js, Vue.js, CSS Preprocessors, Webpack
- Back-End Development: Docker, Node.js, Express.js
